### I DEAR FRIENDS AND COLLEAGUES,

It is with our great honour and pleasure that we extend to all of you the most cordial invitation to the 37<sup>th</sup> International Union against Sexually Transmitted Infections (IUSTI) Europe Congress to take place in Zagreb, Croatia, from September 11 to 14, 2024.

The 37<sup>th</sup> IUSTI-Europe Congress is an exceptional opportunity for the exchange of the scientific ideas, knowledge, and experience among colleagues dedicated to sexually transmitted diseases and genital dermatology from across Europe and World. The lecturers that have already accepted our invitation definitely represent a distinguished group of internationally renowned professionals, including dermatologists, gynaecologists, infectologists, microbiologists, urologists, proctologists, epidemiologists, sexual health professionals etc.

It is our great privilege that we have developed a very close collaboration with all of them through many previous congresses, joint projects, multicentre studies, registries, the creation of new guidelines etc. But...much more than only this, many of the world-renown experts in the field of STIs have become our good friends meanwhile, based also on the warm, friendly, open and sincere atmosphere characteristic for our Congresses and IUSTI Europe in general. Thus, we assure you that each of you wishing to share your experience and, at the same time get some new insight into the dynamical and challenging field of STIs today would benefit by joining us at this outstanding Congress!

Besides, we feel free to remind you that this is officially the greatest annual STIs event in Europe taking into account many different aspects of various STIs, HIV infection/AIDS and genital dermatoses on one place, under the “umbrella” of long-lasting tradition of IUSTI Europe...measuring in decades.

We also assure you that the traditional Croatian hospitality awaits you in our capital city Zagreb...the Middle-European “boutique” city with the unique “Southern breeze” at the same time, presenting itself in the best possible atmosphere in September, the most suitable time to visit Zagreb and experience its dynamic, vibrant, but also relaxing charm. The Congress Organizing and Scientific Committee will do their utmost to create an unforgettable professional and social atmosphere for every participant.

We definitely anticipate an exciting scientific program and lively discussions. We are looking forward to your valuable presence and contribution!

**Welcome to Zagreb!**

The IUSTI Advanced Course on Sexually Transmitted Infections 2024 “From yeasts to HPV” will be held, as a day pre-meeting course of the IUSTI Europe Congress. The course is particularly aimed at young clinicians and Health Care Providers (HCPs) developing an interest in sexually transmitted infections, but all STI-interested colleagues from all IUSTI regions are invited. Well-known European experts will present an update on STIs as well as new diagnostic technologies, and discuss the most recent recommendations for treatment and prevention. The course includes interactive case presentations with participants.

Fee: 100,00 €

The fee will cover all course materials, refreshments and lunch.

## POSTERS, ORAL PRESENTATIONS OF SELECTED POSTERS AND ORAL PRESENTATIONS

### POSTERS

Hard copy posters should be of a maximum size of 1198mm x 841mm (A0) in portrait format. We have increased the emphasis on posters this year, with one-hour sessions for coffee and posters on Thursday and Saturday mornings. All posters are displayed for the whole conference, but presenters of odd numbered posters are asked to stand by their posters during the Thursday morning poster session and presenters of even numbered posters during the Saturday morning session. Please put your poster up on Wednesday afternoon and leave it up until the end of the meeting. Any potential conflicts of interest should be clearly declared on the poster.

### ORAL PRESENTATION OF SELECTED POSTERS

If you have been invited to present your results orally, this is in addition to displaying your e-poster. Each presentation is for 3 minutes, with 2 minutes for questions. You are allowed a maximum of 4 slides including the title slide.

### ORAL PRESENTATIONS

Oral presentations are for 8 minutes, with an additional 2 minutes for questions and discussion. Please format slides in widescreen 16:9 using the PowerPoint on screen page set-up function. Slides formatted at 4:3 can be shown, but there will be some blank screen to the sides of the slide. Please make slides easily readable with large text and do not put too much information onto each slide. Please upload slides in the Speaker ready room on the day before your presentation. Please

check carefully that all videos run correctly and ensure that you have uploaded all the necessary files. Any potential conflicts of interest must be declared on a slide immediately after the title slide.

### SPEAKERS PREPARATION DESK

- Speakers Preparation Desk is located next to the Registration desk.
- All speakers are requested to come to the Speaker Preparation Desk on the day before or at least 1,5 hours in advance of their presentations to verify if the data functions properly on the equipment provided.
- Speakers will use PowerPoint presentations. All presentations will be loaded onto a server (At the Speaker Preparation Desk) and distributed to an appropriate session room at an appropriate time via a LAN.
- All speakers are kindly requested to declare if they have / do not have the potential conflict of interest at the beginning of their presentations.
- The authors are personally and professionally responsible for the contents and the attitude expressed in their presentations.

**ABOUT  
ZAGREB**

## ABOUT ZAGREB

### WELCOME TO ZAGREB, THE CAPITAL CITY OF THE REPUBLIC OF CROATIA

Zagreb is an old Central European city. For centuries it has been a focal point of culture and science, and now of commerce and industry as well. It lies on the intersection of important historical routes between the Adriatic coast and Central Europe. The city is rich in cultural heritage, deeply rooted in the European, particularly Central European, culture.

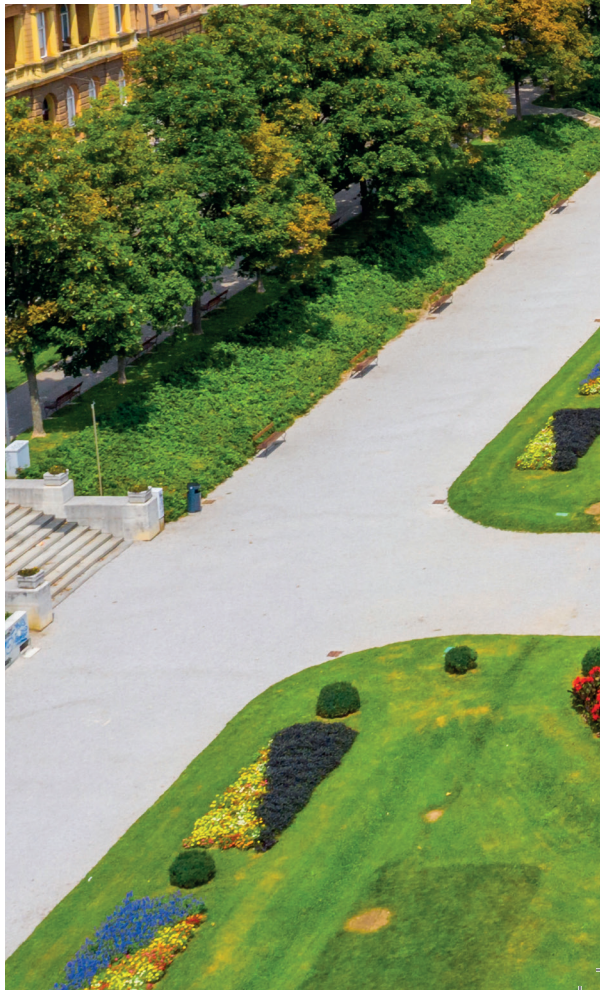

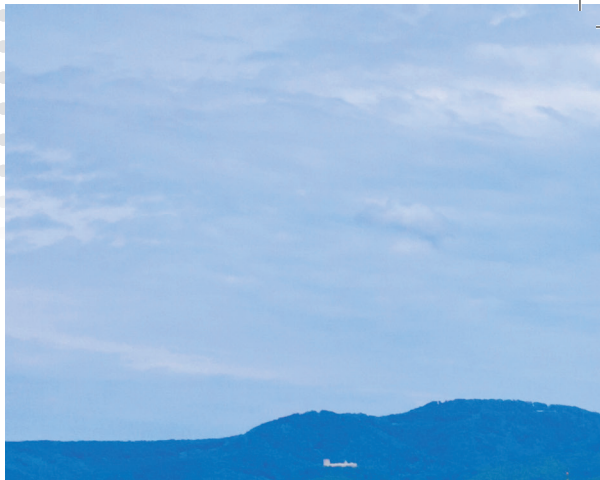

The historic core of the city, the Upper Town and Kaptol, a unique ancient town core by European standards is merged with the more recently built parts of Zagreb, and its modern buildings. Zagreb can offer its visitors the Baroque atmosphere of the Upper Town, picturesque open-air markets, diverse shopping facilities, an abundant selection of crafts and a choice vernacular cuisine.

Zagreb is a city of green parks and walkways, with many places to visit in the beautiful surroundings. In spite of the rapid development of the economy and transportation, it has retained its charm, and a relaxed feeling that makes it a genuinely laid back city.

Visitors can sample the richness and variety of the Croatian cuisine – from turkey, duck or goose (the inevitable roasts on the table in Zagreb and its surroundings) with “mlinci” (pastry baked directly on the top of the stove), and the most delicious specialities of Mediterranean cuisine.

Fish and other sea food, caught in the early morning hours somewhere along the Adriatic coast, will be served for lunch in one of numerous fish restaurants in Zagreb. Zagreb has many restaurants – from highly specialized restaurants (fish, vegetarian, pasta and the like) to small snack bars.

**Please feel free to enjoy the security and warmth of the Croatian capital.**
